

# Amari Pattaya Organises CSR Activity for Students

Recently, Amari Pattaya organised the “First Step Activity” to provide educational opportunities for students at the Banglamung Home For Boys. This activity was a part of Amari Pattaya’s CSR project aimed at educating students in the Pattaya area in order to help them prepare for their future careers by gaining practical experience outside the classroom and gaining knowledge of the hotel industry in a real-world professional environment. The training modules included a hotel inspection and an introduction to the operation of a hotel. Later, in a cooking class led by Chef Wongduan Dowreuang at Mantra Restaurant & Bar, the students successfully learned how to cook pizza and had lunch together. The students enjoyed the cooking workshop and learning about the hotel. We believe that we can inspire younger generations to grow up to have a bright, shining future.
