

BNOW.org recently held the BIG TALK event at the Hive co-working space

March 20th, 2018, Bangkok - BNOW.org, a social enterprise, recently held the BIG TALK event at the Hive co-working space, where guests skipped the small talk to have deeper conversations with thought provoking questions. The evening kicked off with a short and engaging discussion with two coaches who explained the benefits of BIG TALK and why it should be included in our daily lives, followed by guests drawing a card with a question and sharing their answer with their partner.
