

CENTARA NEARS HALFWAY DONATION MARK OF “10,000 THANKS” TO SUPPORT MEDICAL HEROES IN THAILAND

International hotel group Centara Hotels & Resorts nears halfway mark with over 4,200 room nights booked by medical personnel across Thailand in its “10,000 Thanks” campaign launched in recognition of their hard work.

Centara’s “10,000 Thanks” initiative commenced on 1st July 2020 with 10,000 donated room nights for doctors and nurses to enjoy a complimentary one-night stay for two guests at any Centara Hotels & Resorts property in Thailand and overseas before 30th December 2020.

“Across the country, the dedication of frontline medical staff has contributed to Thailand’s ongoing Covid-19 recovery, efforts that saw Thailand ranked number one in the world out of 184 countries in the Global Covid-19 Index. We are immensely grateful for everything they do and delighted they have been able to enjoy a much-deserved break on us.” said Markland Blaiklock, Deputy CEO of Centara.

Just one month into the campaign, with over four months to go, nearly half of the 10,000 room nights have been claimed.

“10,000 Thanks” can be redeemed across the group’s brands across Thailand, as well as overseas, including in the Maldives. The free night offer is reserved for medical front line professionals who are doctors and nurses with Thai nationality or currently residing in Thailand only.

Centara is also extending appreciation to all other personnel working in hospitals with an offer of 25% off every rate across the group’s entire portfolio spanning 14 destinations. “25 Special” bookings can be made on www.centarahotelsresorts.com between 1st July - 30th December 2020 with no restrictions on travel period.
