

Dimension Data Honored as 2018 Thailand Enterprise Systems Integrator of the Year

Mr. Sutas Kongdumrongkiat was honored with the Senior Leader Award at the FY17 Dimension Data Global CEO Awards for his outstanding leadership as well as with the Frost & Sullivan 2018 Thailand Enterprise Systems Integrator of the Year Award for best practices in the industry and outstanding, innovative and effective solutions for customers around the world. Dimension Data Thailand aims to be the top leader in an industry which provides consulting and other services related to modern communication, network, cloud, cybersecurity technology and thereby meets the needs of customers who invest in effective management information technology.

As on 28th March 2018, Dimension Data (Thailand) Limited was honored with the 2018 Frost & Sullivan Thailand Excellence Awards in a lavish awards ceremony held by Frost & Sullivan, a world-class business consulting firm involved in market research and analysis, growth strategy consulting, and corporate training across multiple industries at Anantara Siam Bangkok hotel. Mr. Sutas Kongdumrongkiat, Chief Executive Officer, Dimension Data (Thailand) Limited won the Frost & Sullivan 2018 Thailand Enterprise Systems Integrator of the Year Award for best practices in the industry thanks to his company's excellent customer service record, internal corporate management approach and continuous contributions to technology system development.

"In the name of Dimension Data Thailand, we are very honored to win this prestigious award again in this year. It serves as an indicator of our success in many areas including management and businesses processes and will serve to motivate us to keep improving and strive to reach new targets.

Moreover, this award is proof of our skills and ability to meet the needs of a quickly changing digital working society where goods and services are evolving more rapidly every year," explains Mr. Sutas Kongdumrongkiat, Chief Executive Officer, Dimension Data (Thailand) Limited.

About Dimension Data

Founded in 1983, Dimension Data is a USD 8 billion global leader in designing, optimizing, and managing today's evolving technology environments. This enables its clients to leverage data in a digital age, turn it into information and extract insights.

Headquartered in Johannesburg, Dimension Data employs 28,000 people across 46 countries. The company brings together the world's best technology provided by market leaders and niche innovators with the service support that clients need for their businesses - from consulting, technical, and support services to a fully-managed service.

In Asia-Pacific, Dimension Data operates in 35 offices across 13 countries. The company helps clients enable technology, operate their IT infrastructures and transform technology solutions that deliver value. It combines an expertise in digital infrastructure, cybersecurity, customer experience (CX), and digital workplace, with advanced skills in IT outsourcing, IT-as-a-Service, Systems integration services and training.

Dimension Data is a proud member of the NTT Group. Visit us at <http://www2.dimensiondata.com>

2018 Frost & Sullivan Thailand Excellence Awards

The Frost & Sullivan Best Practices awards have identified and honored best-in-class companies that have demonstrated excellence in their respective industries such as the leaders in new technology and innovation, the best in customer service and the strategical goods and service development etc. The Frost & Sullivan Award is broadly known and accepted in many countries. Frost & Sullivan Thailand Awards was founded on 26 January 2012.
