

# Haier Chooses Boy Pakorn as Its First Brand Presenter Preparing to Launch Eight New Series of Hi-end Air-conditioners with Cutting Edge Functions

**Haier Thailand gears for the high-end market with eight new series and 25 models of hi-end air-conditioners with a range of cutting edge technologies and functions to launch in 2018. Famous actor Boy Pakorn Chatborirak was chosen as Haier's first brand presenter in Thailand.**

Mr. Zhang Zhenghui, President of Haier Thailand revealed that Haier has become the world's No. 1 brand in the white goods category for eight consecutive years because of its design, production, marketing and quality control, which is among the world's best.

Haier total product sales in 2017 is estimated at 500,000 units, bringing in revenue of 2,700 million baht - 550 million baht from refrigerators, 310 million baht from washing machines, 1,300 million baht from air-conditioners, 340 million baht from freezers, 155 million baht from TV sets and 45 million baht from other products. Air-conditioner sales is registered at 200,000 units, a 10% growth from 2016 sales. According to GFK report, Thailand's air-conditioning market in 2017 has declined but Haier sales is on the contrary. Haier air-conditioning products are among the top in its class with R&D centers in 10 regions around the world including China, the US, EU, Australia, etc. as well as world-class smart factories complete with IoT system. Also with strong logistics and after-sale service, Haier is confident that it will become a leader in the Thai market soon.

Mr. Zhang Zhenghui said that Haier will see many changes in its air-conditioning department in 2018, especially in Inverter, Self-cleaning and Smart Air Conditioner models of which Haier is a major leader in the market. Haier will reposition its air-conditioning products to the high-end level in order to cover all segments. The company now has R&D, production and sales departments covering all area in Thailand.

Eight new series and 25 models of Haier air-conditioners will be launched in 2018 - 24 models in seven series are wall-type and one model in one series is floor-standing type. Outstanding models are Inverter air-conditioners with cutting edge functions including Eco-pilot Sensor that detects persons in a room and automatically adjusts its temperature and fan speed based on the amount of people that are in the room, Light Sensor that detects the amount of light and heat and automatically adjusts the temperature, Human Sensor that detects people's motion in a room and adjusts operation to optimize its cooling efficiency, PID DC Inverter that control the rotor position of

the compressor to improve power efficiency, Smart Control that lets you control the operation through smart phone and WIFI and Self-cleaning Technology that decreases the temperature at the evaporators to make them frosted so that the dust will be released in just 20 minutes.

At present, Haier has promoted its high-end products and invested in shop display including Haier Zone and Special Shop. Its latest outlet is Haier Shop in Shop on the 4<sup>th</sup> floor of Siam Paragon that features latest products and can approach its customers more conveniently. The second half of the year sees mid high-end products from Haier to stimulate sales and provide support for dealers. For next year, Haier prepares all kinds of marketing support including seasonal activities with dealer's shops and other marketing activities as well as a TVC which is planned to launch soon.

"Haier has chosen Famous actor Boy Pakorn Chatborirak as brand presenter to signify our love and care for customers and to better communicate with modern consumers. We hope that they will like our products just as they do with our brand presenter," said Mr. Zhang Zhenghui.
