Dr. Akanit Srisukwattana, Managing Director, “Avarin Multisport Store” states, “VO2 Max is a heart and lung function test that measures physical fitness, indicating how much exercise is possible for each person. The machine uses three data, “Heart Rate Zone”, “Running Speed” and “Exercise Intensity” and adjusts them accordingly to sports in all categories. New athletes or professionals should also get tested to improve their exercise potential to better meet their goals. The working team will film subjects’ running form during testing and will analyze and adjust for better running. The procedure on the treadmill takes roughly 15 minutes, while the analysis takes 50 minutes. Patrons are welcome to try it out at “Avarin” Crystal Ratchapruek branch.”
