

# SPU : SPU Student as Event Facilitator at One Young World Summit 2015

Mr. Sirapan To-in, a 4 th. year student from the School of Law was selected to participate as an event assistant in The One Young World Summit 2015, an annual international summit where the most valuable young talent from global and national companies, NGOs, universities and other forward-thinking organizations are joined by world leaders. The event aims to gather together the brightest young people from around the world, empowering them to make lasting connections to create positive change. This year, it was held in Bangkok from 18-21 November 2015, and our SPU student joined the organizing team as a flag team member. Sripatum University is very proud to see the student acted as a representative of the University - having joined the international event where the student met other representatives around the world. This gave the student a good opportunity to enjoy international experiences, gain various skills especially team working skills, and build relationship with people from other countries.
