At the closing ceremony of Thai- German Programme on Energy Efficiency Development Plan (TGP-EEDP). Under the TGP-EEDP, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH - is cooperating with the Energy Policy and Planning Office (EPPO) under the Thai Ministry of Energy, to contribute to the further development and support the implementation of Thailand's Energy Efficiency Plan (EEDP 2011-2030 and EEP, 2015-2036). The TGP-EEDP project aims at promoting the increase of energy efficiency in industry and building sectors to create a direct impact on CO2 emission reduction.

Project Information:

Since May 2013, the TGP-EEDP programme has started to support Thailand's Energy Efficiency Plan in four main activities, which are (1) energy baseline and data management; (2) mandatory approaches to energy efficiency; (3) energy efficiency incentive instruments; and (4) integration of energy efficiency and climate policy. More in general, the programme contributed to international knowledge transfer and capacity building on energy efficiency for a diverse range of Thai stakeholders.
